

TAKE ACTION TO FREE INCARCERATED MOTHERS IN TURKISH JAILS ON “MOTHER’S DAY”

After the *failed coup attempt* of July 2016 in Turkey , there has been a tremendous rise of *human rights violations*. Hundreds of thousands of public officers, academicians, journalists, teachers, civil servants are dismissed, along with thousands of arbitrary detentions with groundless allegations. Currently there are *thousands of mothers* in jails along with *hundreds of children*, whose access to health care is not allowed in jails.

Please join us to send this message to the international community and stand by the advocates of human rights on “*International Mother’s Day*, May 12th”.
